5. Consider recommendation to council to change decision as it relates to Legion and VFW Pools.

George Brown spoke in reference to Legion Pool and the special board meeting that was held on December 14th. With area residents feeling very passionate about the pool the park board felt it was important to receive citizen input.

Discussion by the board members followed.

Ryan Jennings felt the residents that spoke are very passionate about keeping Legion pool and the importance the pool has to the community. The importance for kid's ability to walk or ride bikes to the facility was highlighted. He feels that the voice of people cannot be ignored and this decision should be sent back to council to reconsider whether or not the decision is the right one.

Randy Soquet felt there were a lot of great ideas and options received at the special meeting and that the decision should go back to City Council for consideration.

George Brown feels the park board cannot just send this back to City Council but needs to make a recommendation to City Council on what decision is best for the city and citizens.

Sue Schinkten summarized what she feels the main points were from the special meeting; the pool is a community gathering place; safety issues; the east/west side divide.

Dean Raasch stated that the studies were done to get an overall view of what was going to be best for the pools and the city. The studies show the greatest growth is coming from the south and adding improvements to the pool system have to benefit the entire city

as a whole. The conclusion from the studies was it was more affordable to go to an aquatic center

Discussion by the board followed regarding the pools declining numbers.

Ryan Jennings stated he voted for moving forward with the Aquatic Center at City Council, however with the 2014 community survey showing the majority wanted to maintain two pools, and the core group of people that are now organized, he feels the decision should be revisited. He was elected as an Alderperson to represent his district as well as the city, and his district has made it very clear they do not want to lose the pool. He feels if an aquatic center is built at VFW then Legion pool should be updated as well and the park board should send this back to council for reconsideration of closing Legion pool and building a single aquatic center.

Larry Lueck stated that without a doubt this was the most thought out decision ever made by the board. He doesn't mind thinking about it, but if this is sent to back to City Council it needs to be clear what the park board is looking for.

Dean Raasch has concerns that the longer that we go without making a decision, the more expensive the options will be. We need to look at what is best for the city as a whole and would recommend moving forward.

Sue Schinkten made a motion to open the meeting for public comments at 7:00 pm, seconded by Randy Soquet. Upon vote, the motion passed.

Mike Donovan spoke in favor of the aquatic center. He was on the park board and this was a well thought out and difficult decision to make. He knows this is not the most popular decision in this group of residents here tonight, but it is the most popular in the City and the park board should keep the decision of building an aquatic center on west side.

Betsy Hornseth stated that over 1,600 people signed the petition to save Legion pool. Many still question as why the decision was made with the survey responses and the consultant's recommendation of either keeping two pools or have one aquatic center and one pool. She spoke about the major points addressed in the petition.

Sandra Delgacco stated she runs a daycare and takes kids there for swimming lessons. She would like for Legion pool to stay open so she can give kids the opportunity to take swim lessons.

Angela Bougie had questions regarding the Legion facilities if the pool is closed. She also commented that numbers could be falling because there are missed opportunities at the facility. The basketball courts need updating and there is a new playground, but not one for small children.

Julia Vidani spoke about the safety issues and the difficulty for kids to cross the river. She also stated that an aquatic center is targeting the middle to upper income kids who can get rides there and pay a higher amount to get in and closing Legion pool eliminates a large segment of population who need the pool the most.

Alice Wood stated she rides her bike with her children everywhere in the summer. The pool is a draw for people to move to area and fix up downtown houses in De Pere. This is what makes De Pere special.

Kelley Quakkelaar feels repairing the pools will decrease the amount of money being lost every year and that solutions should be looked at instead of the problems with closing the pool. There are a lot of residents that are willing to help think of these solutions.

Dean Raasch made a motion to go back to regular order at 7:25 pm, seconded by Sue Schinkten. Upon vote, the motion passed.

Discussion by the board followed.

Dean Raasch commented that only a small percentage of people that signed the petition are City of De Pere residents.

Ryan Jennings explained that the number of traffic stops increased because the City now has a dedicated officer doing traffic stops. Ryan asked Marty Kosobucki if he could address the affordability of the facility and the recreation scholarship program.

Larry Lueck questioned Mary Kosobucki what the process would be if nothing was done tonight. Marty explained that feedback would continue to be obtained, the design would be finalized, a cost estimate for the facility would be obtained, and then funding sources would need to be decided on.

Dean Raasch commented on the safety of the roundabout and that the state and county are responsible for the area. He also commented on fundraising efforts and feels the fundraising option should continue.

Sue Schinkten feels the need to be creative on ways to get kids from the east side to the west side. The park will still be open so there would still be a gathering place and kids could still ride their bikes to the park.

Randy Soquet feels if people want to get organized to fundraise there is still plenty of time to make changes.

Larry Lueck feels there is no need to take back to council but to keep discussion going.

Dean Raasch also feels there is no motion needed but keep on course and keep the discussion going. If things happen that allows us to change course with funding source to help save Legion pool, this would be a whole different conversation.

George Brown agreed that we should continue down path but keep lines of communication open.

Marty Kosobucki commented on fundraising and feels that if the board is seriously considering changing direction they should stop the design process.

Randy Soquet questioned if the contract with the consultant expires.

Larry Lueck questioned Marty Kosobucki on staffing concerns.

Ryan Jennings feels the decision to close Legion pool should happen after the aquatic center is open. The question to City Council is whether they want to consider waiting until the aquatic center is open to close Legion. Separate the two issues, stay on course, and figure out how to keep Legion pool open.

Ryan Jennings made a motion to refer the decision of closing Legion pool back to Council and for the decision to close Legion pool be made after the aquatic center is open, seconded by Sue Schinkten. Upon vote, the motion passed.

Discussion followed.

Below is the roll call vote for Ryan Jennings above motion.

Ryan Jennings - Yes

Larry Lueck - No

Dean Raasch - No

George Brown - No

Sue Schinkten - Yes

Randy Soquet - No

Motion fails 4 - 2

George Brown stated that continuing the design of the aquatic center doesn't stop people from any type of fundraising to help save Legion pool.

George Brown made a motion to take a 3 minute recess at 8:05 pm, seconded by seconded by Ryan Jennings. Upon vote, the motion passed.

RESULT:	DEFEATED [2 TO 4]
MOVER:	Ryan Jennings, Alderperson
SECONDER:	Sue Schinkten, Board Member
AYES:	Ryan Jennings, Sue Schinkten
NAYS:	Larry Lueck, Dean Raasch, George Brown, Randy Soquet
EXCUSED:	Bill Volpano

6. Select Bid for Community Center Boiler Replacement.

The meeting was called back in session at 8:10 pm.

Ryan Jennings made a motion to accept bidder 1 – Tweetgarot, seconded by Larry Lueck. Upon vote, the motion passed.

RESULT:	ADOPTED [UNANIMOUS]
MOVER:	Ryan Jennings, Alderperson
SECONDER:	Larry Lueck, Alderperson
AYES:	Jennings, Lueck, Raasch, Brown, Schinkten, Soquet
EXCUSED:	Bill Volpano

7. Consider Lease Option for Mower Replacement.

Sue Schinkten moved to approve the leasing option for a zero turn mower, seconded by Dean Raasch.

Discussion from the board followed regarding the cost of the mower, how long they typically last and long term lease options.

Upon vote, the motion passed.

RESULT:	ADOPTED [UNANIMOUS]
MOVER:	Sue Schinkten, Board Member
SECONDER:	Dean Raasch, Alderperson
AYES:	Jennings, Lueck, Raasch, Brown, Schinkten, Soquet

8. Consider Agreement with De Pere Unified School District to Financially Support Lighting.

Marty Kosobucki updated the park board that the \$15,000 funding for tennis courts lights at De Pere School District was approved by City Council and put into the budget.

Discussion by the park board followed regarding agreement language.

Larry Lueck recommended that language be added to the agreement that states the lights will not require payment to use them.

9. Consider Action with Use of Old Diamond Lights from Optimist Park.

Marty Kosobucki gave a review of the options available for the old diamond lights from Optimist Park.

Discussion by the board followed.

Larry Lueck made a motion to send back to staff and for Marty to research financial numbers for option 1 and option 3, and replace option 2 with the possibility of pickle ball court lighting, seconded by Dean Raasch. Upon vote, the motion passed.

RESULT:	REFERRED BACK TO STAFF [UNANIMOUS]
MOVER:	Larry Lueck, Alderperson
SECONDER:	Dean Raasch, Alderperson
AYES:	Jennings, Lueck, Raasch, Brown, Schinkten, Soquet
EXCUSED:	Bill Volpano

10. Discussion of Fairgrounds Planning Process.

Marty Kosobucki gave an update on the Brown County fairground planning process and asked the park board for guidance and input to give to Brown County.

Discussion by the park board followed.

After discussion the board provided input that the boat launch, ice rink, and eagle nest and oak trees are not to be changed, but are open to other changes.

RESULT:	DISCUSSED

III. Staff Updates

1. 2018 Approved Budget - Changes

Marty Kosobucki provided an update of the approved budget and the only major change was the funding of the tennis courts lights at De Pere High School.

IV. Future Agenda Items

Larry Lueck requested an update on the band shell.

Larry Lueck requested for Marty Kosobucki to look into the funding of youth sports organizations prior to the next budget.

Randy Soquet requested the soccer field conditions be put on the agenda for discussion.

V. Public Comment Period

None

VI. Adjournment

Randy Soquet made a motion to adjourn the meeting at 8:50 pm, seconded by Sue Shinkten. Upon vote the motion carried.

SUBJECT: Consider Agreement Language with De Pere School District for Tennis Court Lighting.*

The De Pere City Council approved giving \$15,000 to the De Pere School District for the purpose of lighting their tennis courts. At our December meeting the Park Board reviewed criteria for such an agreement however no motion was made. Since the December Park Board meeting, I was informed from Jeff Byczek (Athletic Director) the intention of the school is to charge a small fee to use the lights. At the last meeting the following contingencies were outlined.

- Funding can only be used for capital costs related to installing lights at De Pere High School Tennis Courts.
- The City shall participate in capital related costs only, and not ongoing maintenance or operating costs.
- The courts shall be open to the public when not scheduled for events, meets, or other special programming.
- The agreement shall last as long as the lights remain in operation at the tennis courts.
- The City shall pay \$15,000 to the De Pere School District once the lights have been installed and are operational.
- The public shall not be charged for use of the lights.

In my discussions with Jeffy Byczek (De Pere Athletic Director) and Jerry Gillespie, it is my understanding they will both be in attendance at our meeting to answer questions. I realize the Park Board indicated they were not in favor of charging, however in meeting with Mr. Gillespie and Mr. Byczek I think they provide a very sound rationale for charging a minimal fee...of which they will be able to share with you at the Park Board meeting. Staff would recommend continuing with the agreement and eliminating the contingency of not charging for lights.

Once the Park Board has approved the core language of the agreement, I will work with City Attorney's office to draft an agreement.

DEPARTMENT: Parks, Recreation & Forestry

FROM: Marty Kosobucki

SUBJECT: Consider Action with Use of Old Diamond Lights from Optimist Park.

When Optimist Park was reconstructed the old diamond lights were not reused on the new diamond. We currently have the lights stored, but would like to develop a plan for them so that they do not take up storage without a purpose. Below are the steps taken to obtain information on re-purposing the diamond lights.

- Staff analyzed the need for lights on our own diamonds. Legion has relatively new lights and VFW Lights are likely in slightly better condition than the lights from Optimist. So as far as the City goes, we would not have a use for them on our diamonds. We could consider lighting a tennis court, however this has not been in any long range plan of ours.
- I reached out to the two school districts to see if they had an interest in the lights. West De Pere indicated they were not interested, and De Pere School District indicated they would look at the issue but has yet to communicate back with us.
- Next, we communicated with the Girls Softball Program, De Pere Baseball, De Pere Rapides Soccer and De Pere Select Soccer. Of the four groups contacted, only the De Pere Baseball group has submitted a proposal to use the lights. I have included a communication from Bruce Duevel from the De Pere Baseball Board of Directors, on how they would like to use the lights. De Pere Baseball would like to use the lights at Quarry Park in the Town of Lawrence and/or possibly the diamond in Ledgeview.

In looking at the situation, I believe the Park Board has three likely options.

Option 1 - would be to attempt to sell the lights via government surplus. In talking with a rep from an electrical contractor, it is very tough to determine what we could get for them. VOS Electric indicated to purchase our equipment new, it would be approximately \$50,000. However, our lights are approximately 15 years old. I investigated as much as possible, the cost of used lights, however there is not a real market for used lights. I was able to find used diamond lights (fixtures only) for anywhere between \$50-\$125/each, but could not find anything comparable for light poles. There are a total of 28 light fixtures.

Option 2 - Consider lighting/constructing a Pickleball court. This option is probably not as clear cut as we would like it to be because of the high number of variables and several questions we do not have answers to. Nonetheless, I put together some ideas/concepts behind lighting a pickleball court(s). If we were to construct a brand new two court, lighted facility, the cost of the facility is estimated to be \$25,000 and lighting the facility would be around an additional \$25,000 - \$35,000. Part of the variable in this option is that the light poles we have are 50 ft poles, which would be too high for Pickleball courts. While there is no standard that we can find, the height of the light poles would be more in line with 30 ft poles. So we would need to

install/purchase new light poles. New light poles would be around \$2,500 - \$4,500 based on information I have.

Another option is to convert one of our tennis courts. One full tennis court can be converted into two pickleball courts. In pursuing this option you could consider lighting the tennis court facility and pickleball courts. However, once again the light poles will be too high for use. Installation would once again be \$25,000 - \$35,000.

Option 3 - Donating or selling the lights directly to De Pere Baseball for purposes outside the City limits. If the Park Board wishes to go in this direction, you will need to make a recommendation and direct the item to the City Council for consideration.

Marty

The De Pere Baseball Board met last night and has a definite interest in the lights currently used at the De Pere softball field.

As our organization has continued to grow over the past 2-3 year at a rate of 30-50 kids a year we are running out of field space(daylight) to provide enough playing time for each kid in our program. As a result we have had to either increase the amount of players on a team or reduce the amount of games they play. This issue is at our younger ages, Little Slugger and Pee Wee level which play at the Quarry and Ledgeview parks. Increasing the team size and allowing less playing time for a team are both circumstances that don't align with De Pere baseball's vision; More kids to playing more baseball.

Our proposal is as follows:

Who will benefit from the lights?

Our Little Slugger and Pee Wee programs have the largest amount of kids. LS and PW games are being played at the two Quarry Parks and Ledgeview Park with no lights. Games are played M-Thursday 3 games a night in the spring and 1-2 games a night in the fall (less sunlight). If these light are secured our proposal is to work with the Town of Lawrence to install them on one of the Quarry fields. By doing so this would provide for one additional game in the spring each night and 1 additional game in the fall each night. It would also provide for De Pere baseball to expand the amount of teams allowed into their annual tournaments and play a game or two under the lights. At this time only a brief conversation regarding lights has been had with the Town of Lawrence, however, initial conversation with them indicates they are very interested in moving the process forward provided the lights can be secured. In the event the lights could not be installed at the Quarry fields, De Pere baseball would approach the Town of Ledgeview and propose they be installed at LV field.

How will the lights be installed?

The plan would be to work with a local contractor to install the lights. This would be paid for by De Pere Baseball.

When would De Pere baseball be looking to make this happen?

De Pere baseball would begin conversation with the Town of Lawrence after the lights have been secured. Installation engineering estimates would be pulled together in the upcoming months and plans to install would be projected in the upcoming year.

Is De Pere baseball willing to purchase the lights?

At this time De Pere baseball would intend that the light would be donated to

our program. If
this is not an option De Pere baseball would entertain further conversations.

Marty is this enough info for your meeting? Would you like me to be present at the
meeting to answer
any additional questions?

SUBJECT: Approval to Accept Project Proposal for the Construction and Installation of Backstop Nets on 3 Soccer Fields at SW Park by an Eagle Scout.*

Issue: This memo is to seek the Board of Park Commissioner's approval for the De Pere Parks, Recreation and Forestry Department to accept a Project Proposal from an Eagle Scout to construct and install backstop nets on the north end of 3 soccer fields at SW Park. (Please see the attached proposal)

Summary: The Eagle Scout Service Project Proposal from Scout Adam Brada details plans to fund raise and acquire materials to build the nets at SW Park. The approximate value of the donation may be \$6600. I have spoken to Adam and he will be recruiting volunteers to help him in his quest. His goal will be to build 3 nets, but if he falls short he will at least try to raise enough for the 2 eastern most fields as these are the biggest concern.

Thank you for your consideration in this matter. If you have any questions, concerns or comments, please do not hesitate to contact me.

Troop 1139

Description of Project: Install backstop nets on the north fields behind the north soccer goals at Southwest Park.

Reason it is needed: Balls are kicked over the goal and into the thickets and delays the game for kids because they have to go get it.

Materials required: cement, nets, posts, any tools to place the backstop nets

Estimated cost: The nets and posts are about \$1,750 each plus \$160 shipping and \$275 for the cement that will be used and any equipment needed to be rented = \$2,185 per field.

Source of funds: Donations from families who have kids that play soccer on the fields, Boy Scout families and my church/school.

Estimated date of completion: May 2018 or June 2018

Estimated time to do installation: one weekend

Estimated number of people needed to do installation: around 12 to 15 .

SUBJECT: Consider preliminary designs for Aquatic Center.

As part of our project with our consultant designing our Aquatic Center, the first step is to have three different concepts proposed to the Park Board. Each of the three concepts will include the following...

- 3D rendering of the aquatic facility
- 2D rendering of VFW Park
- 2D architectural rendering of the aquatic facility highlighting facility amenities and building layout
- Budget projection to include all capital costs
- Projected operational budget

In addition to the three concepts described above, you will find the following attachments with this topic.

- Cheat sheet designed to help you ask vital questions about what direction to take the final design.
- Photographs of other sample aquatic centers.
- Survey results from the public related to the Aquatic Center design.

Aquatic Designs – Cheat Sheet

1. What is the overall cost of the facility?
2. What are items that drive up the cost of an aquatic facility?
3. What makes the facility “unique”? (Why would people want to come to our Aquatic Center versus doing something else or go to another facility?)
4. What will it cost to run this facility? (operational budget...ie. Staffing, utilities, chemicals, supplies, etc...)
5. What is the impact to the park?
6. Consider the impact of parking? (ie. Is there enough, is it located in the right place, etc...)
7. What is the plan or what should be the plan of any park amenities impacted?
8. Are there good sight lines for lifeguarding staff and the manager’s office?
9. Are there amenities or offerings that we should be looking at, that are not shown? (Video surveillance, play features, extra-curricular activities, etc...)
10. What is the ultimate goal of the facility?
11. How much of a value should we place on a lap pool?
12. What type of lighting will be present.
13. What other events/activities can this facility offer besides swimming related activities? (ie. Birthday parties,)
14. What is the pro’s and con’s of an attached versus detached mechanical room.

I. Project Overview

A. Project Description

The City of De Pere has identified a need to replace the existing pool facility at VFW Park. The current pool facility at VFW Park is one of two municipal pools operated by the City, both constructed approximately 60 years ago. VFW Park is approximately 13 acres in size with several active park uses such as softball field, basketball court, playground, tennis court, and sand volleyball court. Parking is adjacent to the pool along with other amenities such as concessions and bathrooms.

The City has retained GRAEF to develop a conceptual design and master plan for the new Aquatic Center. The new Aquatic Center will replace the existing pool facility, including bathhouse, mechanical building, and other related features. Part of the effort in developing a conceptual design and master plan, is engaging the municipal stakeholders and general public for input and ideas. That effort is nearing its conclusion and concept development is well underway.

B. Completed Phases

The existing facilities at VFW Park were investigated to understand the opportunities and challenges present. The investigation included site visits to observe the condition of the facilities and park first hand, and to interview different stakeholder groups. The key stakeholders interviewed were Parks and Recreation management staff, pool maintenance staff, pool managers/operations staff, various members of the Board of Park Commissioners, and City Economic Development staff.

The general public input phase is centered around an online survey. A nine (9) question survey was developed, in coordination with City of De Pere Park and Recreation staff, to solicit aquatic center specific feedback and comment from the community. The survey went live on September 6, 2017. Direct email notifications requesting participation, with links to the survey included, were distributed to the community database managed by the City. In addition, the survey link was posted on the De Pere Parks, Recreation and Forestry Facebook page. This new survey is intended to supplement the Location Study survey but dive deeper into the aquatic facility elements. The comment period is still open but will be ending shortly. This report summarizes the results of the survey and comments received. Once the survey is closed, a further evaluation and interpretation of the responses and comments will be completed.

II. Summary of Survey Results

The survey questions were developed in coordination with the City of De Pere Parks, Recreation and Forestry staff with the goal of identifying community interest in various options of possible amenities that may be provided. A total of 483 responses were received. The following paragraphs give a brief summary of the responses generated for each question on the survey, as well as summarizing the comments received via the hard copy comment forms.

A. Questions

1. Q1 – Are you a City of De Pere resident?

The vast majority of responders to this question indicated that they were City of De Pere residents (85%) vs living outside the community (15%). None of the respondents skipped this question.

Q1 Are you a City of De Pere resident?

2. Q2 – How many members of your family would use a new Aquatic Center for each of the following age ranges?

Of the 483 survey respondents, 3 people skipped this question. From the remaining responses, a total of 941 adults (age 19 and over) and 938 children (age 0 -18 years) were identified as likely users of a new Aquatic Center. In the children's groups alone, the largest user category is the 5-10 year-old age range. Only a small percentage of the total pool users falls into the 16-22 year-old age range (5.1%).

Q2 How many members of your family would use a new Aquatic Center for each of the following age ranges?

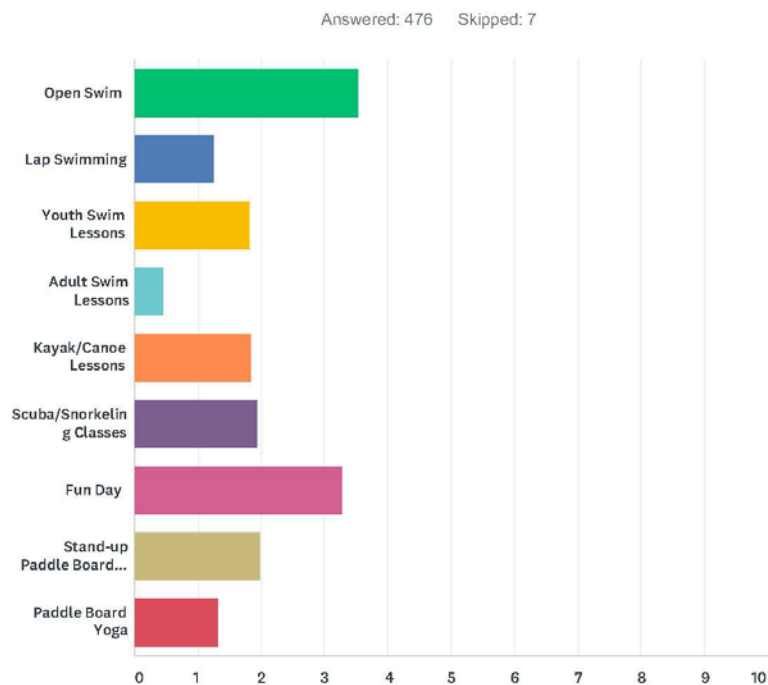

ANSWER CHOICES	AVERAGE NUMBER	TOTAL NUMBER	RESPONSES
0-4 years	1	257	210
5-10 years	1	392	290
11-15 years	1	219	184

3. Q3 – How many people in your household will likely participate in each of the following programmed activities at a new Aquatic Center?

Of the total survey respondents, 7 people skipped this question. From the remaining responses, it is clear that the pool activity that receives the most participation is open swim. For this category, 423 respondents indicate at least one family member would be likely to attend, with a total of 1,497 people likely to attend. The next populous category is fun day, with 305 respondents indicating a total likely attendance of 1,004 people. Only one activity from the list shows anticipated attendance at less than 100 people: Adult Swim Lessons.

Q3 How many people in your household will likely participate in each of the following programmed activities at a new Aquatic Center? (identify all that apply)

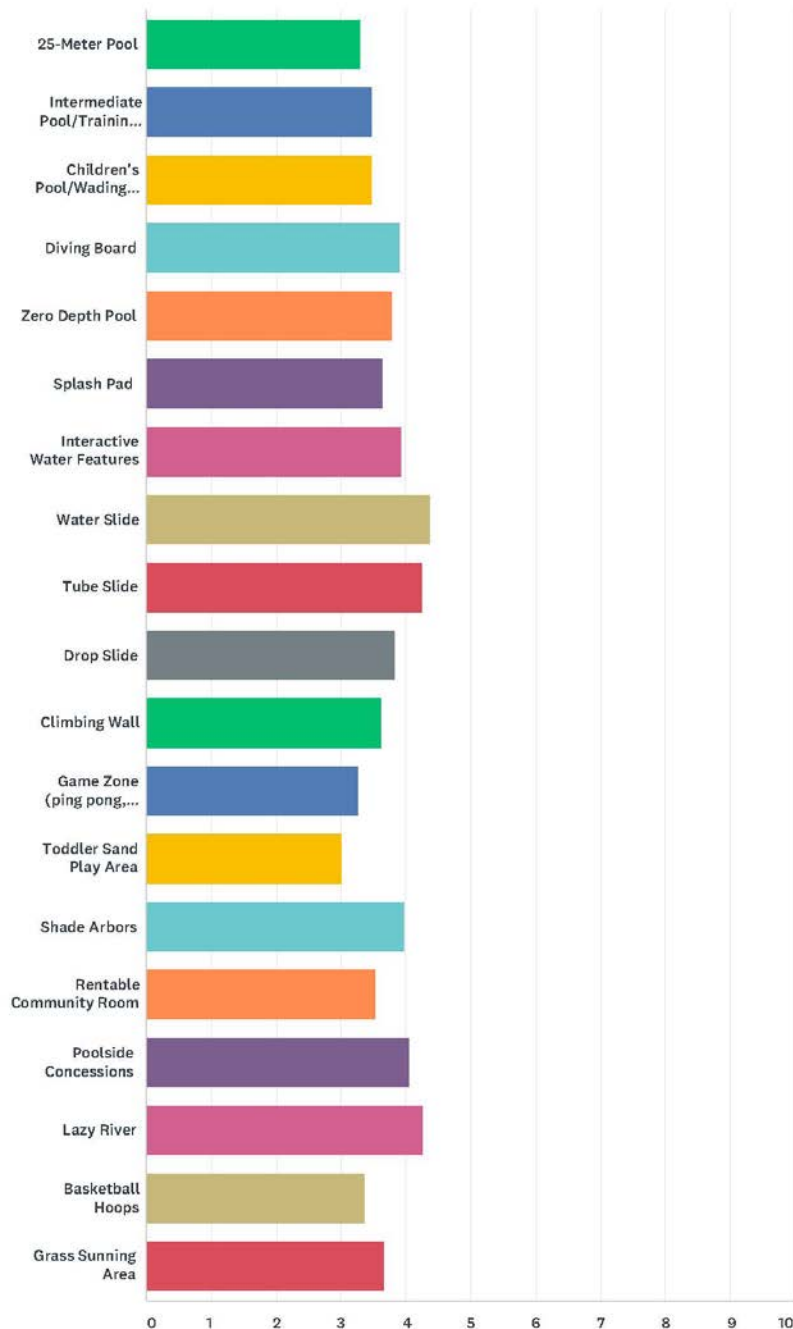

ANSWER CHOICES	AVERAGE NUMBER	TOTAL NUMBER	RESPONSES
Open Swim	4	1,497	423

4. Q4 – Which of the following amenities (see images below) would cause you to utilize a new Aquatic Facility more? (rank each from 1 – “very unlikely” to 5 “very likely”)

Of the total survey respondents, 2 people skipped this question. From the remaining responses, the water slide has the highest anticipated utilization, with 85.1% of respondents indicating that it would cause them to use the pool more. Lazy river, tube slide, and poolside concessions also received high numbers of votes as desired amenities. A toddler sand play area is the least desired amenity from this list, with only 40.5% of respondents indicating that it would increase their use of the facility.

5. Q5 – Which of the following organized activities would cause you to utilize a new Aquatic Center more? (check all that apply)

Of the total survey respondents, 45 people (9.3%) skipped this question. The largest proportion of responders, about 57.8%, said they would utilize the pool more if special event/theme days were offered. Nearly as many respondents (54.8%) indicated that movie nights would cause them to use the new facility more. The least popular activity for increasing utilization is water polo.

Q5 Which of the following organized activities would cause you to utilize a new Aquatic Center more? (check all that apply)

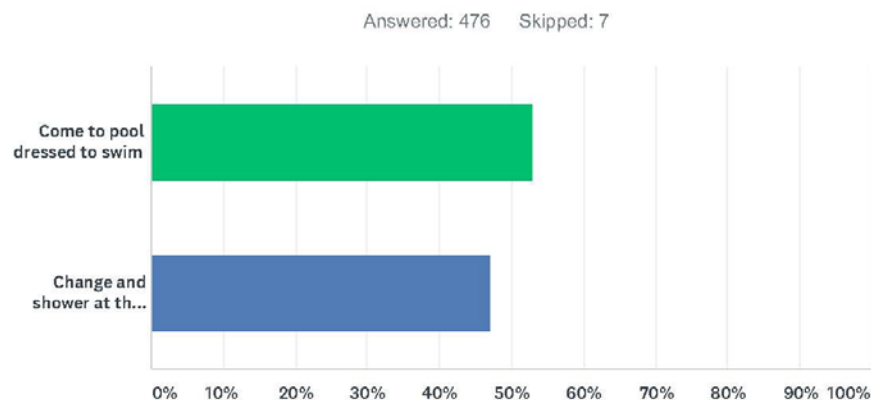

ANSWER CHOICES	RESPONSES	
Adult Water Aerobics	46.80%	205
Adult Fitness Class/Zumba	40.87%	179
Water Polo	5.71%	25
Movie Night	54.79%	240

6. Q6 – Do you or your family prefer to come to the pool dressed to swim or do you prefer to have a locker room at the pool facility to change and/or shower?

Of the total survey respondents, 7 people skipped this question. The number of people that come dressed to swim (52.9%) vs those that come to the pool facility and change/shower there (47.1%) was fairly evenly split.

Q6 Do you or your family prefer to come to the pool dressed to swim or do you prefer to have a locker room at the pool facility to change and/or shower?

ANSWER CHOICES	RESPONSES
Come to pool dressed to swim	52.94% 25
Change and shower at the pool facility	47.06% 22
TOTAL	47

7. Q7 – Are there any other amenities, features, or programs/activities you would like to see for the new Aquatic Center?

Of the total survey respondents, 207 individuals provided additional comments on features and programs they would like to see at the new Aquatic Facility. Responses included comments regarding the separation of staff spaces, bathroom cleanliness, desire for lessons and training, shade structures and chairs/seating around the pool area, and lockers. A fairly high number of comments were centered around a desire for a pool facility in both the east and west sides of De Pere vs a single aquatic facility. Following is a listing of the most common topics addressed by the comments:

- Swimming lessons
- Pools in both east and west De Pere
- Larger and clean bathrooms

10/10/17

- Larger changing rooms with lockable lockers
- Lap swim/Adult use hours
- Family changing area/bathrooms
- Seating and shade

8. Q8 – Please provide any additional comments on potential new Aquatic Center features

Of the total survey respondents, 193 individuals provided additional comments on the new Aquatic Facility. Of these comments, a significant number of them were addressing the location and a need or desire for pool in both east and west De Pere. The remaining responses covered a large variety of topics including cost, swim rates, features such as splash pads and lazy river, swim lessons, and lap/adult swim times. Following is a listing of the most common topics addressed by the comments:

- Location – east and west De Pere
- Cost of the facility
- Swim rates
- Splash pads, diving boards, slides
- Swim lessons
- Parking

9. Q9 – Please enter your name and email address.

Of the 483 survey respondents, 327 individuals provided their name and email address.

199	We loved the outdoor swimming pool at Legion Park. I have 3 small kids and LOVED that it was a pool we could just swim at and learn how to swim without worrying about bigger kids running them over who were using the slides etc. Swimming lessons are a must, but an increase of price would be very difficult for our family to handle. A kids play area WITHOUT water splashing on their face and heads would be great. Also, being able to access the kiddie pool while swimming lessons were going on was the whole reason we started going to Legion Park. All other pools were only available after swimming lessons and that was when naps were.	9/6/2017 1:18 PM

4	I would NOT use this facility of any kind nor do i want to pay for it.....it is a shame the kids from the east side have to be shuttled over to the west side to swim NOT just get wet from a *splash pad*	9/14/2017 8:46 AM

15	Why would you take away the pool on the east side and replace only with a splash pad and then build a big aquatic center on the west side? You are taking away a valuable amenity on the east side. I am a tax payer and am very upset that you aren't keeping things equal. What a shame. My family will not utilize the new aquatic center.	9/11/2017 6:03 AM
16	While all if this sounds like a great plan, leaving one side of DePere with just a splash pad is unreasonable. It's unfortunate that all of the East DePere kids will basically left out due to no safe transportation to the new center. So many of them are/were able to bike to legion and enjoy their summer afternoons at the pool, now they are just being left with a splash pad? What older children is going to enjoy That? They are the ones losing out on a great and safe summer hangout.	9/9/2017 11:14 PM

36	We do not need a fancy aquatic center. There are numerous options for that in the GB area. We need to keep our basic swimming pools in De Pere on BOTH sides of the river. The city should focus on fixing both pools instead of building something we don't need.	9/7/2017 4:01 PM

62	While this all sounds amazing and fun, I truly wish there was something for both sides of the river. My kids are of the ages that they are able to bike/walk to the pool independently, but with the changes this will no longer be the case. This will be the case for many families/programs when you take the pool away from Legion Park. I'm in favor of continuing to have a pool at both parks so they are accessible to more kids/families. A splash pad/baby pool at Legion is not enough.	9/7/2017 6:30 AM

72	Nice	9/6/2017 11:06 PM
73	Sad to see legion park was not chosen for the park. I think an east side facility would get more traffic.	9/6/2017 11:06 PM
74	keep pools on both sides of town. my family will not get a family pass for VFW. too far to bike.	9/6/2017 10:52 PM
75	Would be nice to provide pools with just enough features in both De Pere and West De Pere	9/6/2017 10:45 PM
76	It would be nice to still have a pool on the East side, as well as the aquatic center on the West side.	9/6/2017 10:42 PM
77	We belonged to the Jewish Community Center in Mequon when we lived in Milwaukee. It was a beautiful facility. We lived that the basketball court, Gaga out, and activity field was enclosed within the admission area but still separate from the pool. It would be a great place to view when making decisions.	9/6/2017 10:31 PM
78	Ledgeview should be viewed as residents for pool passes. We pay DePere taxes.	9/6/2017 10:24 PM
79	From a community development standpoint I really would like to encourage the city to reconsider their plan and try to determine a way for there to be pool facilities on both sides of the city. I have lived in larger cities and I realize we are not that large where you cannot walk from one side to the other, but that's not the feeling in this community. We need to ensure that we have equitable access to facilities on both sides of the river.	9/6/2017 10:15 PM
80	We are unlikely to use the pool if it is moved to West side only. We are better off with what we have rather than updating only one. What legion has now appeals to a wide age range of ages. A splash pad will not. We don't need waterslides.	9/6/2017 9:53 PM
81	It would be great if the center was surrounded or very near park play areas with picnic tables and grills. Fon du lac aquatic center (pool) is setup that way and it's a great way to spend the day with kiddos.	9/6/2017 9:52 PM
82	We don't need something so fancy. How will we pay for it?	9/6/2017 9:36 PM
83	Nothing	9/6/2017 9:35 PM
84	Could there be one on west side and one on east side and be smaller scale?	9/6/2017 9:19 PM
85	There needs to be, at the very least, a pool on the east side (as there is now) To put an Aquatics Center on the west side and only a splash pad on the east side is not acceptable. A pool is very necessary.	9/6/2017 9:14 PM

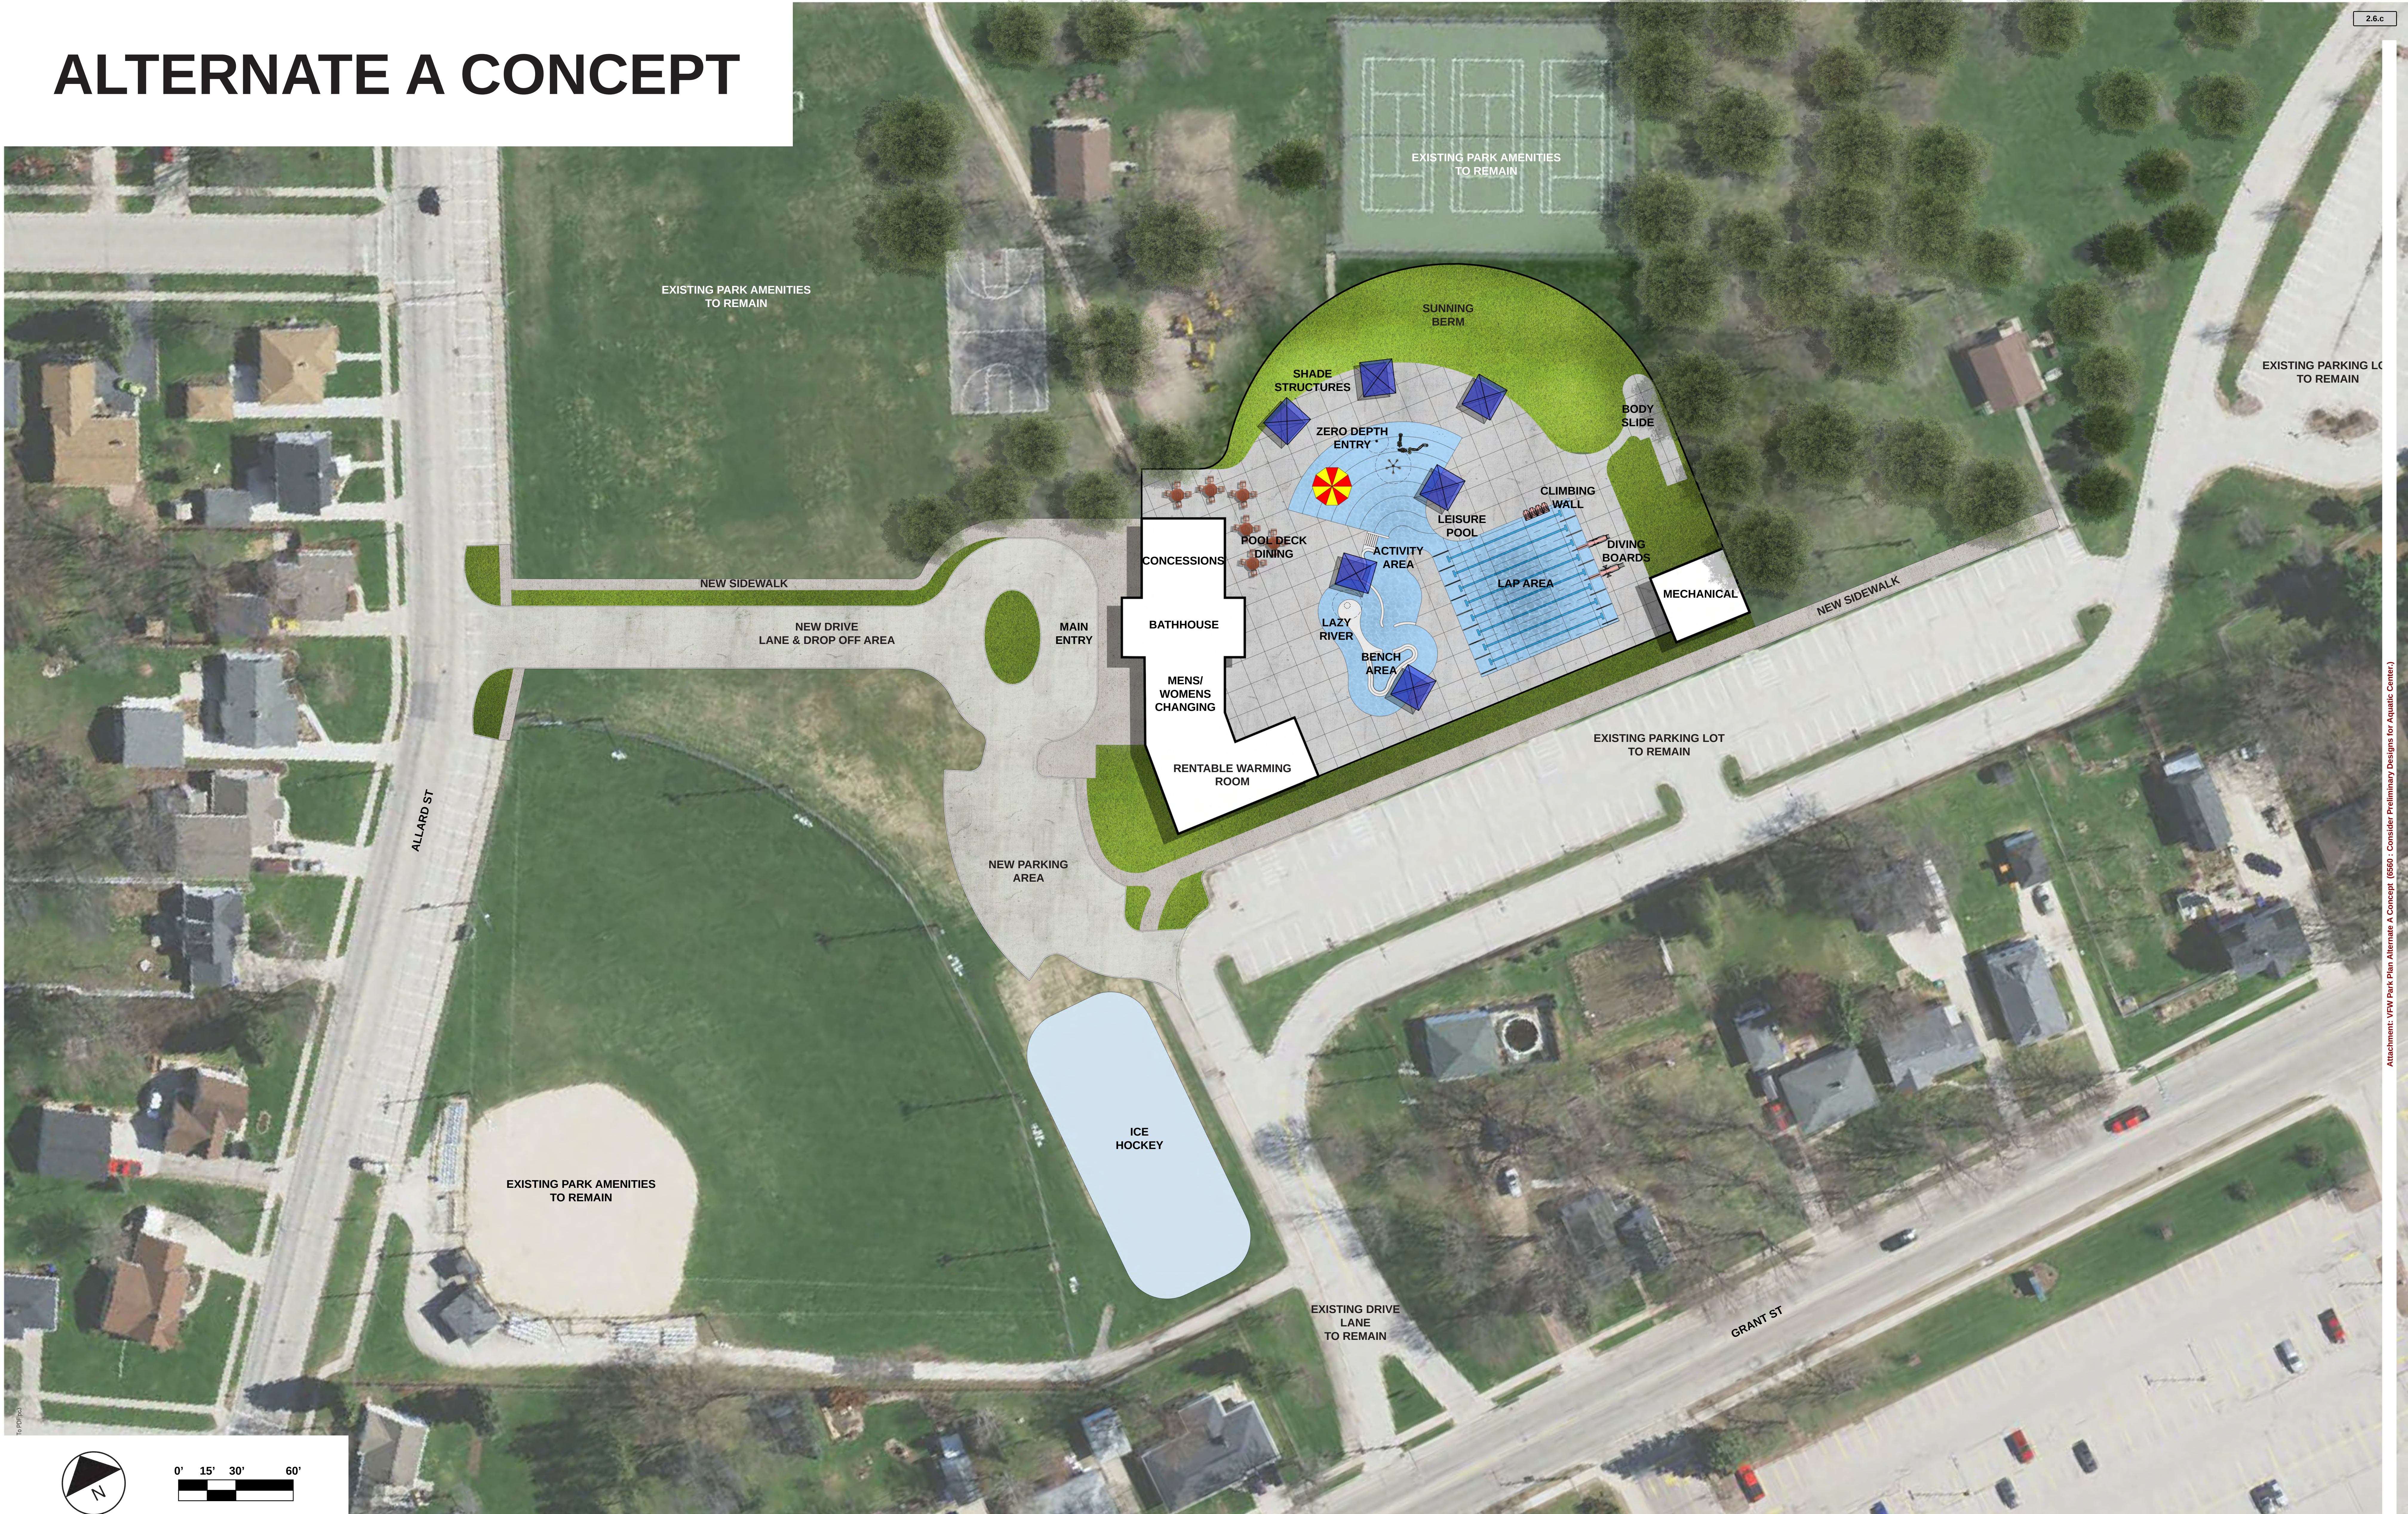

86	The new pool plans look great - but I think it's a mistake to centralize pools to a single location. No matter what side of the city you put the pools on the other side will miss out. Crossing the river is not the same as crossing a street. Many children that walk to their community pools will no longer be able to do so. Are we looking to make the pools something only the rich and well-off can afford to do? Or do we want to keep them open to all members of our community? I understand you've settled on this already. I urge you to re-open it. The community reaction to these plans should clearly tell you we would prefer the same standard two pools to the pools you are proposing - no matter what kind of amenities they may offer. To HELL with the water slides and lane pools if the kids who most use the pools - and most need them - are no longer able to.	9/6/2017 9:13 PM

146	Honestly I don't have any grandchildren in the are who would use it on a regular basis however, I am disappointed that there will no longer be neighborhood pools where neighborhood kids can ride the bikes and take neighborhood swim lessons!! I would rather pay more that have this.	9/6/2017 3:44 PM

147	My family loves the VFW pool. While I appreciate the idea of a huge aquatic center, I fear you'll take away the simple swimming feature you offer now. We recently went to Blue Harbor resort and my kids were bored within an hour because you can only go down slides so many times. They wanted to swim and play catch but there were no pools more than 4 feet deep. The Resch aquatic center is so packed that we don't like going there. I'd hate to see that happen here. However, we love the public pool so close, so if it's the aquatic center or nothing, we'll take the aquatic center! And the concessions and locker rooms need serious updating!	9/6/2017 3:43 PM

160	The most important feature is to have swimming access for BOTH the east and west side of DePere! And if Allouez could have residential fees, even better, and there are no other nearby options for us.	9/6/2017 2:58 PM
161	Really do not like the location.	9/6/2017 2:52 PM
162	Build a pool on the East side of De Pere	9/6/2017 2:42 PM
163	It should be at Voyager instead of VFW	9/6/2017 2:37 PM

170	Price discount on not just City of De Pere residents, but for families that have children in the West De Pere or De Pere school districts that may live in Lawrence or Ledgeview areas since nothing is available for them in rural areas and this would be the closest.	9/6/2017 2:00 PM
171	I think your pool would generate more money if concession stand stayed open awhile after open swim is done. I tend to tell my kids they get a treat after swimming if they're good, but then we need to leave swimming early to actually get it from you. Many times we stayed until the end and would go get ice cream somewhere else.	9/6/2017 2:00 PM
172	A sand play area is just asking for a huge mess and sand in the pool and honestly, I would choose another facility, without sand, if I wanted to go to the pool. Other than that possible feature, I think the ideas above are great.	9/6/2017 1:57 PM

175	Everything looks good!	9/6/2017 1:50 PM

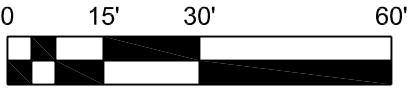

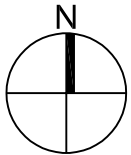

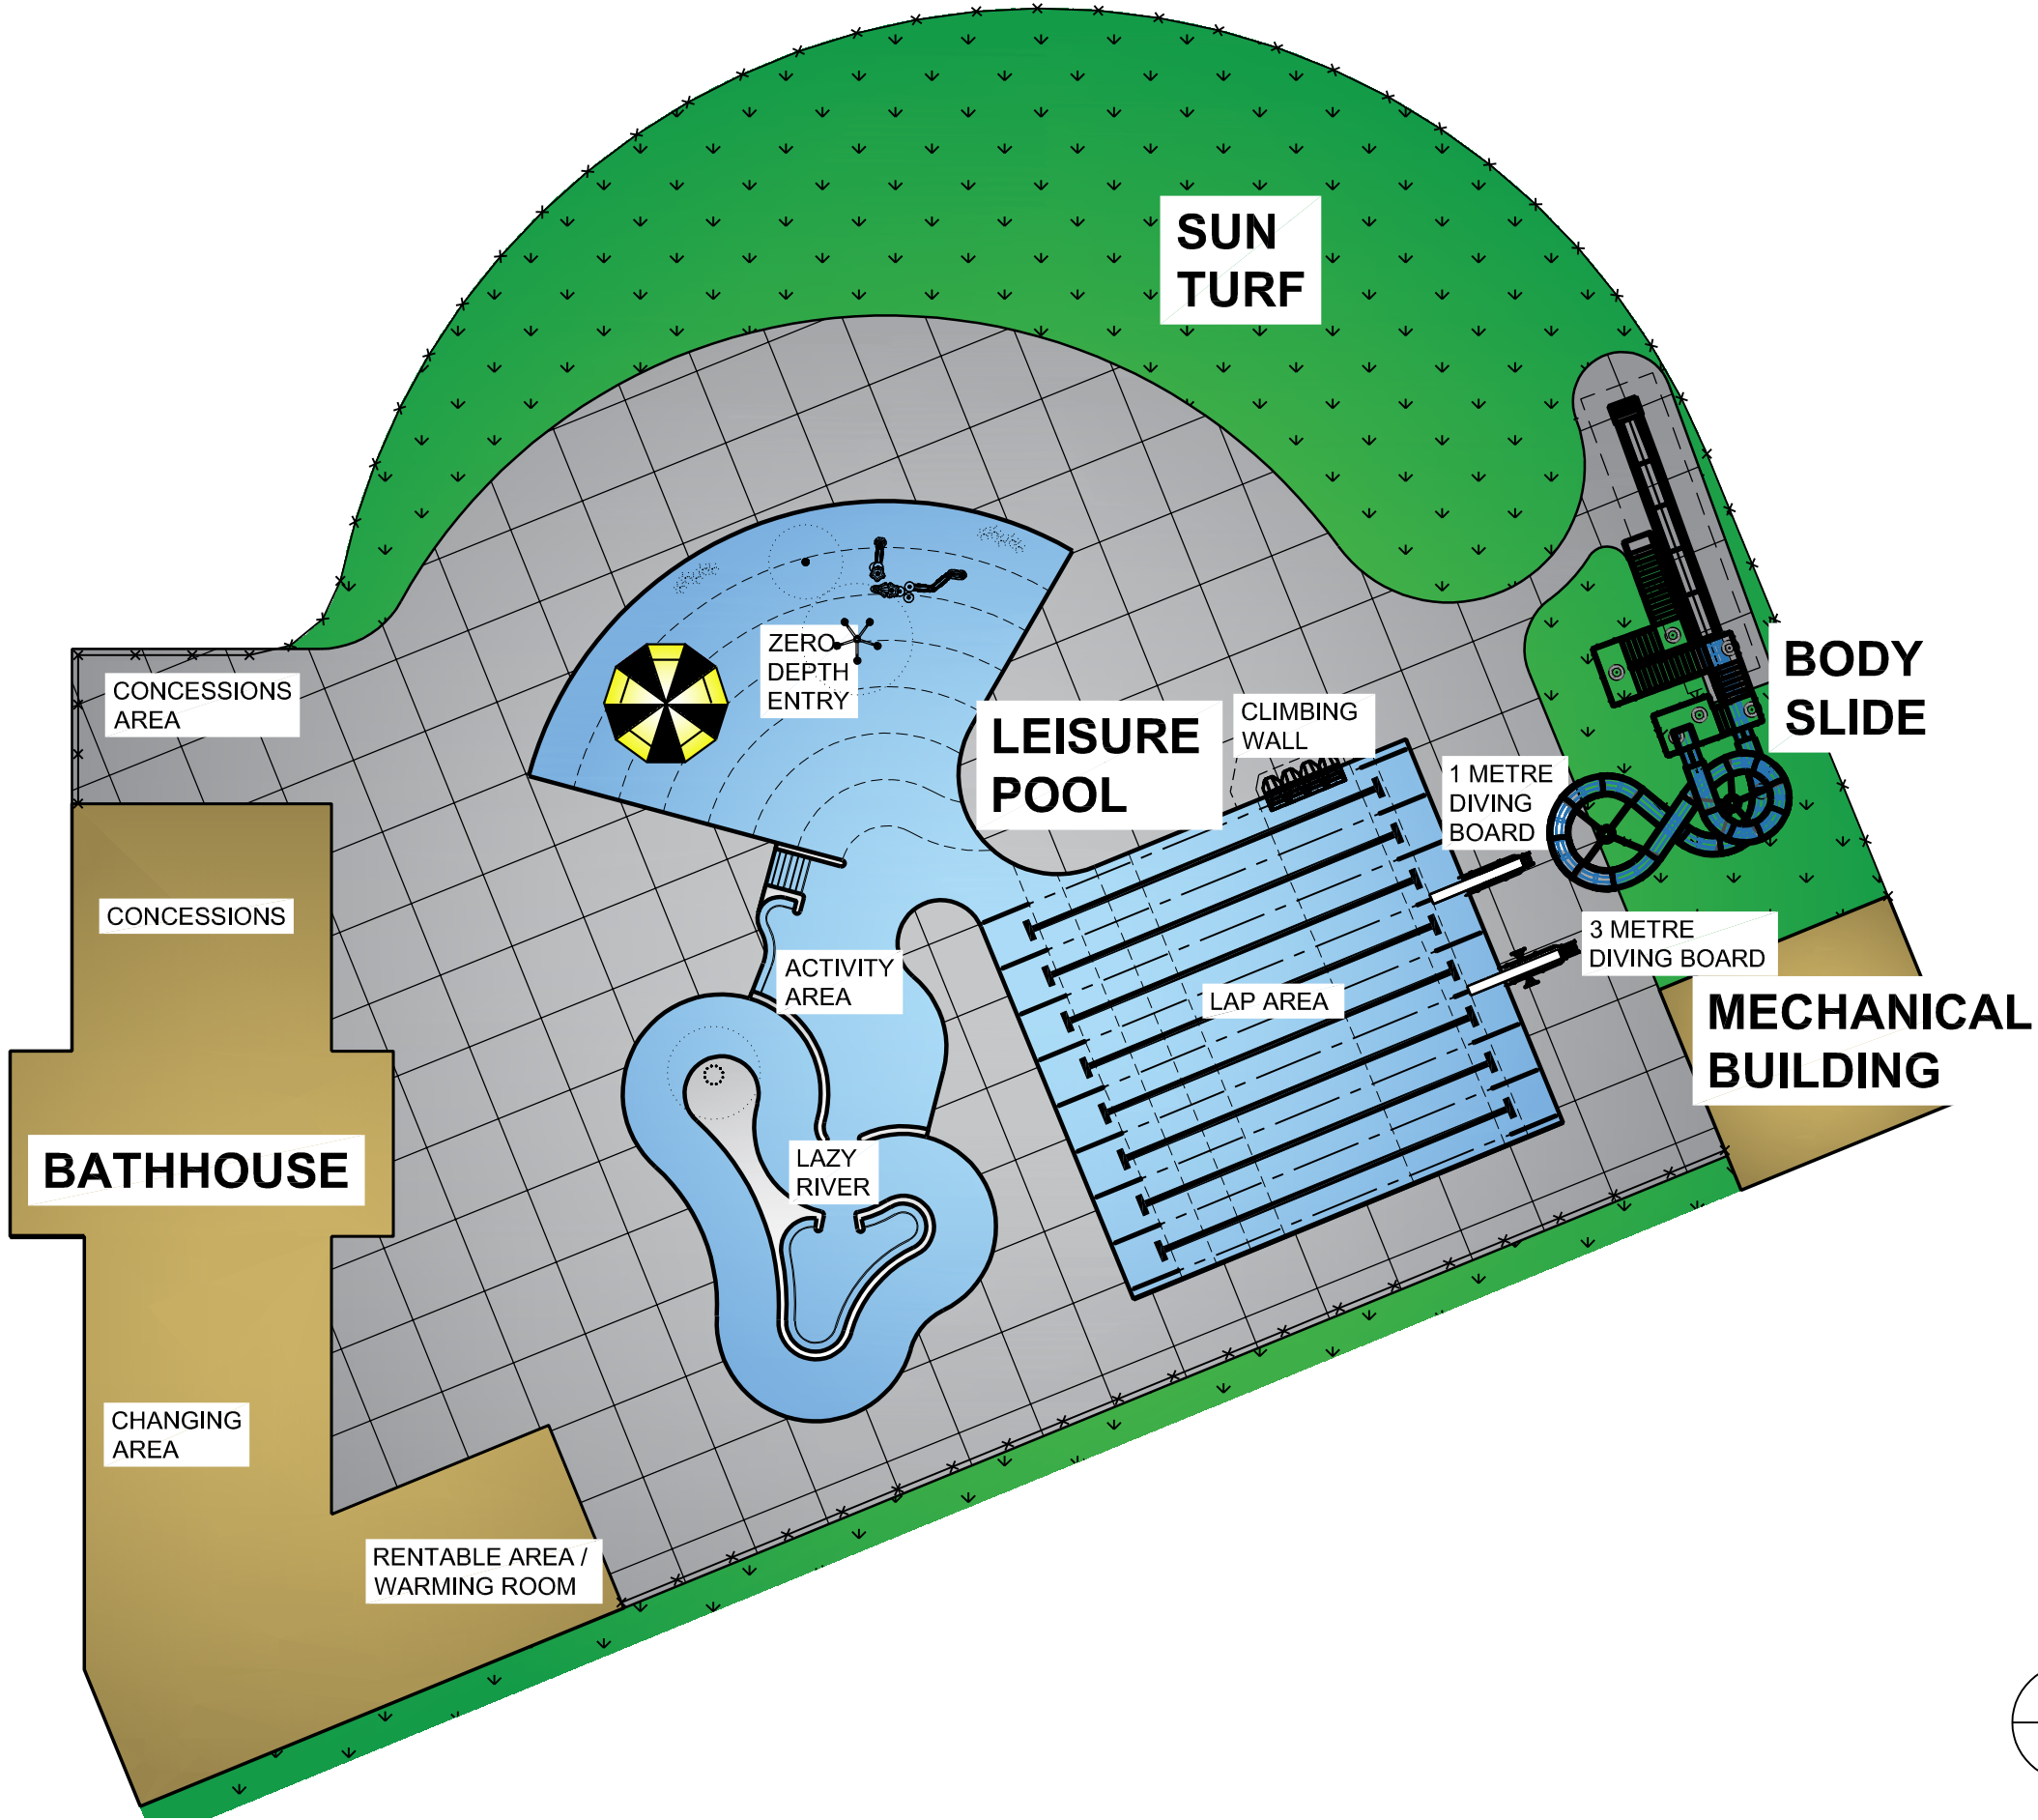

176	I really like the layout of the Resch Aquatic Center. As a parent of children with different swimming abilities, that layout makes it easy to see my children in the different areas. I really do not like big water features in the shallow end of the pool, the little kids don't like them and they are hard to see around.	9/6/2017 1:45 PM
177	Slides & diving boards would be the most important features for my kids.	9/6/2017 1:45 PM

181	I'm still shocked VFW was chosen for the location. Voyager Park seems to be the best fit based on less traffic and easy bike/ trail access.	9/6/2017 1:41 PM

188	We would be extremely interested in sup lessons and sup yoga!	9/6/2017 1:19 PM
189	All the new Aquatic Center features are unnecessary. The Legion Park pool was always full whenever we went and was so much fun to see kids actually swimming and using their imagination instead of having to be entertained the entire time. As a resident of De Pere and a family that has been a swim pass holder AND done swimming lessons the past 2 years, I'm very surprised and disappointed in our city that we were not even asked if this was something we wanted. During swimming lessons this year there were MANY parents there who has no idea that Legion Pool was going to get torn down. Very poor communication with the families who actually are using the pool and investing in our community.	9/6/2017 1:18 PM

**Request For Board of Park Commissioners Action**

MEETING DATE: January 18, 2018

DEPARTMENT: Parks, Recreation & Forestry

FROM: Marty Kosobucki

SUBJECT: Discussion on funding to youth athletic groups

At the December meeting, Alderperson Lueck asked to place the discussion topic of youth funding on a future agenda. While we are not looking for action at this time, we would like the Park Board to have an open discussion on how we distribute funding to our youth groups and is there a better way of handling it.

Currently, we have \$9,477 allocated in our budget to provide to youth athletic groups serving our community. The breakdown listed below was established a number of years ago by the Park Board.

- De Pere Baseball (Babe Ruth, Pony, and Youth Leagues) - \$4,589
- De Pere Girls Softball Association - \$2,178
- De Pere Youth Hockey - \$670
- De Pere Rapides Soccer - \$2,010

It should be noted the City use to provide more funding to youth athletic groups, however funding was incrementally reduced over the years through budget cuts. The history is listed below.

2014 - \$9,447
2013 - \$9,397
2012 - \$18,894
2011 - \$28,200
2010 - \$32,200

Groups do not get their funding until they complete a financial summary for us and identify the number of non-residents participating. Upon getting the financial summary and non-resident payments, we then distribute our funding to the groups.

MEETING DATE: January 18, 2018

DEPARTMENT: Parks, Recreation & Forestry

SUBJECT: Consider room rental waiver request from De Pere Baseball and Giving Tree.

De Pere Baseball is working with a resident to conduct a rummage sale for baseball related items. The rummage sale is designed to help needy families in the De Pere Area as Howard/Suamico. The rummage sale provides an avenue for people to purchase baseball equipment at a reasonable price. All the proceeds from the sale go toward registration fees and equipment for needy families enrolling in the De Pere and Howard/Suamico baseball programs.

In checking with our staff, the Community Center is available for use on the day of their request. While we have been very cautious with approving waiver requests over the last couple of years, we have waived rental fees on the weekends for justified events/causes to our youth leagues we co-sponsor.

Event Description (Please include the following: general purpose of the event, audience description, attendance projection, activities during the event, live music, etc...)

To raise money for students in De Pere & Howard to play sports. We will have a rummage sale of donated baseball/softball items to sell very cheap so families can afford it. All money raised will go towards registration fees for youth in need that want to play sports but can't due to cost. The fees raised will only be used for De Pere & Howard youth.

Event Logistics (Please describe various needs of the event: parking (how much), tents, lighting, stage, garbage, bathrooms, etc...)

It will be come & go as you please. Probably 4-6 hour window. Just need tables and a couple chairs.

What percentage of De Pere Residents are involved with your organization?

50% at least (probably

What percentage of your attendance will come from the City of De Pere?

Guess: 80% same if

Where do proceeds go from the event?

De Pere Baseball & Bay Port Baseball

Please explain the financial hardship the rental fee causes to the organization/event.

We don't have money set aside for this. Our organization is a non profit Pantry.

Please describe the benefit this event will have for the City of De Pere.

It will help more youth be able to play sports. Which will hopefully increase the number of youth involved in extra-curricular activities so they are involved and less likely to get in trouble.

Fee Waiver Policy

Fee waivers may be granted to organizations for the use of park or park facilities under a specific list of guidelines. In general, waivers will only be considered for organizations that are De Pere based, or if the event is ran by a non-profit organization and generates a substantial economic impact to the City. If not eligible under the Fee Waiver Policy, non-profit organizations may make a written request to the Board of Park Commissioners for consideration.

i. Shelter Waivers

1. May be authorized by the Director of Parks Recreation and Forestry under one of the following conditions:
 - a. Rental request is Monday – Thursday, and the event organizer is a Youth organization or Service group, and is lawfully considered a non-profit organization.
 - i. Youth organizations or Service clubs must have over 50% of their service market be De Pere residents.
 - b. Event organizer is governmental agency (ie. School, Water Authority, etc...).
 - c. Event is co-sponsored or sponsored by the City of De Pere.
 - i. Events co-sponsored by the City of De Pere must identify appropriate recognition of City participation and have the City be involved in planning of the event.

ii. Community Center

1. Fees for renting rooms at the Community Center may be waived by the Director of Parks, Recreation and Forestry (or designee) providing the below conditions are met:
 - a. Fee waivers are only permitted Monday – Thursday.
 - b. Non-profit organization comprising of at least 50% City of De Pere Residents, or a public school group within the City of De Pere (youth – high school).
 - c. May only reserve a room a maximum of one time per month, and within two months of scheduled use.
 - d. Must pay all applicable fees for additional rentals and/or amenities, unless approved by Board of Park Commissioners.
 - e. Event is sponsored or co-sponsored by the City of De Pere. Appropriate recognition of the City's involvement must be provided.

iii. Past Waivers

1. If an organization has received a waiver from the Board of Park Commissioners for an event, the Director of Parks, Recreation and Forestry has the authority to approve a fee waiver for the same event, provided the event is similar to previous years events.

iv. General Waivers

1. The Director of Parks, Recreation and Forestry may waive fees if an agreement is in place identifying such action (ie. School District Cooperative Use Agreement).

Organizations not falling under one of the above contingencies for a waiver may still request a waiver by completing a Fee Waiver Application and submitting to the Board of Park Commissioners.

SUBJECT: Consider request to extend snow clearing on Fox River Trail.

Aldersperson Carpenter has requested the City review and consider extending the clearing of the Fox River Trail during the winter through the entire City. Currently, the City cooperates with Brown County to clear the Fox River Trail during the winter. However, Brown County only clears the trail up to Heritage Road.

In discussing the item with Brown County Parks Department, the cost for clearing the trail is estimated approximately \$3,500 per mile. This includes 25 snow events and various sanding/saltings. The amount of trail left to clear in the City of De Pere is essentially one mile. So the cost to clear the Fox River Trail for the winter would be estimated at \$3,500.

In discussing the issue with Brown County Parks Department we were informed if we would like to see the rest of the trail plowed in 2018, the City would need to fund all of the cost. If its something the City would like to see past 2018, it is possible Brown County could participate but would be subject to trail revenue and Brown County approval.

I have included a map showing you the distance and location of the trail in question.

SUBJECT: Consider allowing pets on the Preserve Trail.

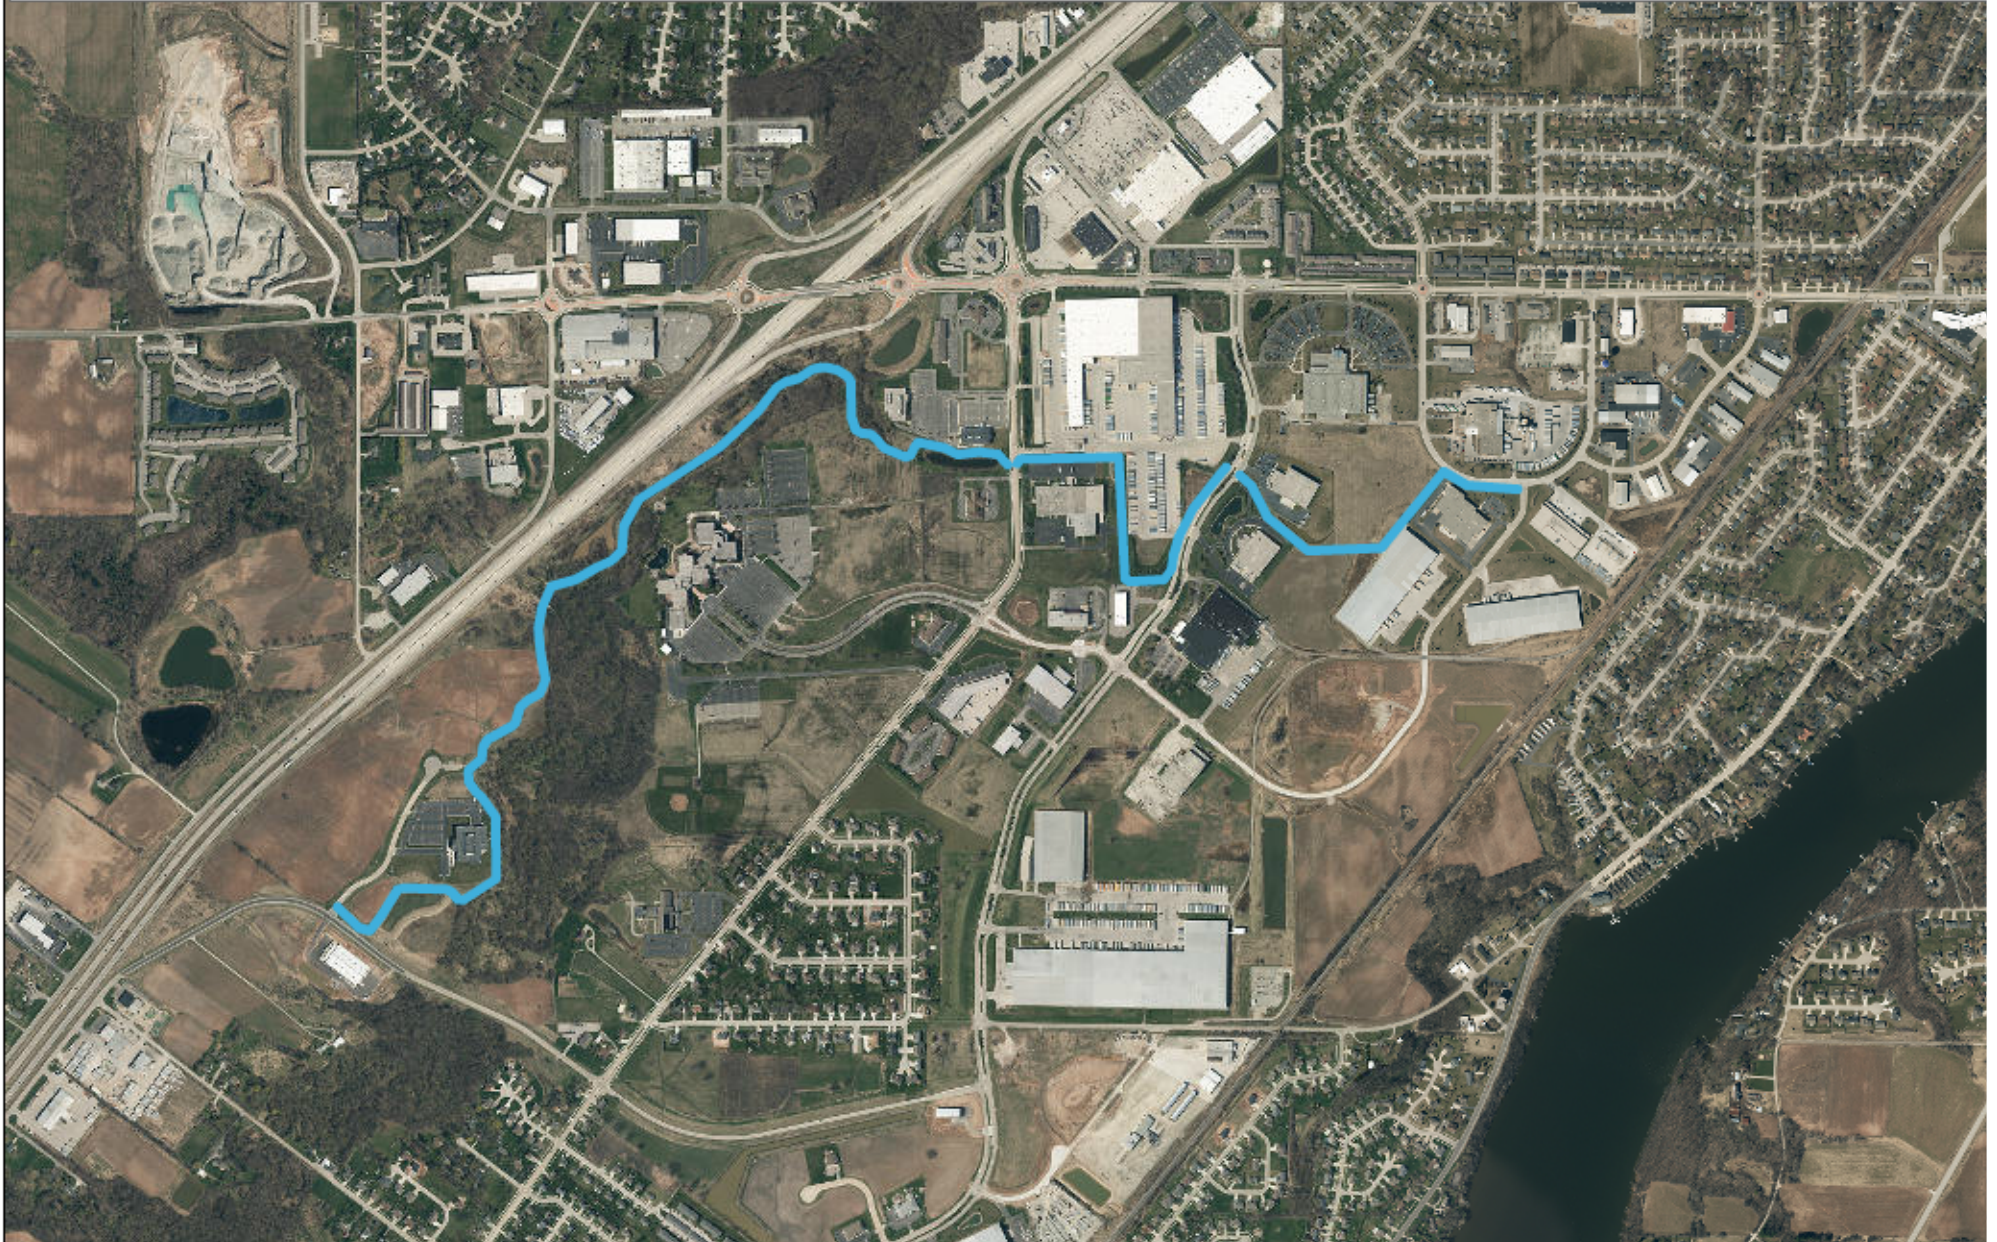

We have received a request from Alderperson Carpenter to consider allowing pets on the Preserve Trail consistent with how we allow pets on the Easter River Trail and the Riverwalk. I have included a map showing the length of the Preserver Trail.

At this point, staff does not see any reason not to allow pets on the Preserve Trail consistent with our other trails.

SUBJECT: Approve Recommendation to Proceed with Green Bay Tennis Center, Inc. Contractual Agreement

The Recreation Department is seeking approval to enter into an agreement with Green Bay Tennis Center, Inc. for the purpose of instructing youth and adult tennis lessons in our community. In the past, it has been hard for our department to find qualified instructors. We have also seen a decline in registrations for tennis so we're hoping to boost attendance with quality instruction. Thus, we have decided to work with Green Bay Tennis Center who will provide qualified instructors to teach the lessons during the 2018 summer season. They will be reimbursed 70% of revenue retained. Full details of the contract are attached which has been drafted by our City Attorney's office.

Thank you for your time and consideration.

**Green Bay Tennis Center, Inc.
Independent Contractor Agreement
(Tennis Instruction)**

THIS AGREEMENT is made and entered into this _____ day of _____, 2018 by and between the City of De Pere, a Wisconsin municipal corporation ("City") and Green Bay Tennis Center, Inc., a Wisconsin Corporation ("Contractor").

WHEREAS, the City wishes to purchase Tennis instruction programming as set forth in Exhibit A; and

WHEREAS, the Contractor has the ability to provide qualified and capable staff to provide such services.

NOW, THEREFORE, in consideration of the above recitations and the mutual covenants, promises and obligations of the parties set forth herein, the receipt and sufficiency of which is acknowledged by each party for itself, the City and the Contractor agree as follows:

1. Term

The term of this Agreement shall be from June 1, 2018 to August 31, 2018 or until service is completed, whichever occurs first. By mutual consent of the City and the Contractor, the parties may agree to extend this Agreement for subsequent terms.

2. Competency, Timing and Cooperation

The Contractor agrees to provide fully qualified instructors for the tennis instruction services, and shall commence, carry on and complete its obligation under this Agreement with all deliberate speed and in an economical and efficient manner in accordance with this Agreement.

3. Compensation

City shall pay the Contractor an amount equal to 70% of all registration fees collected for the programming offered. City shall pay the Contractor in full when they have fulfilled their obligations including make-up classes for any canceled classes.

4. Compliance with Laws and Indemnification

In conducting its activities under this Agreement, Contractor shall:

- a. provide only fully qualified individuals to conduct all programming activities in compliance with all applicable federal, state, and local laws, regulations, and ordinances (including nondiscrimination laws);
- b. secure all appropriate necessary public or private permits and consents;
- c. obtain and maintain all appropriate liability insurance for injury to any person or property arising from its activities relating to this Agreement. Contractor shall provide the City with a Certificate of Liability Insurance in an amount of not less than \$2,000,000 per occurrence naming the City as an additional insured thereunder, and shall provide City with the additional insured endorsement. Such liability insurance shall provide City with not less than 30 days' notice of cancelation; and

- d. to the fullest extent permitted by law, indemnify and hold harmless the City, its officers, officials, employees and agents from and any and all claims or demands for loss of or damage to property or for injury or death to any person from any cause whatsoever (including, but not limited to all fees and charges of attorneys, and other professionals, and all court or arbitration or other dispute resolution costs) caused by the negligent acts or omissions of Contractor or Contractor's officers, directors, partners, employees, agents or contractors in the performance and furnishing of Contractor's services under this Agreement.

5. Confidentiality

The Contractor acknowledges that the City maintains participation records that may be protected as confidential under local, state, or federal law or ordinance and agrees to protect and maintain the confidentiality thereof.

Contractor further acknowledges that, as the Contractor to City, a Wisconsin municipality, Wis. Stats. §19.36(3) applies to it and records produced by it pursuant to this contract are subject to the public records law to the extent they would otherwise be if maintained by the City. Contractor agrees that, within 10 business days of a written request of City, it shall forward to City any such contract or records maintained by Contractor as are requested by City. Such records shall be in the format requested by City provided that such records are kept and maintained in that format. City shall reimburse Contractor for its reasonable costs incurred in complying with this paragraph. Contractor also agrees to indemnify the City from all costs City incurs should Contractor fail to comply with these requirements.

6. Termination and Notice

Either party may terminate the Agreement for cause upon 20 days written notice mailed by first class mail, postage paid to the other party as follows:

If to City:

City of De Pere
Attention: City Clerk-Treasurer
335 South Broadway Street
De Pere, WI 54115

With a copy to:

City of De Pere
Attention: Recreation Superintendent
600 Grant Street
De Pere, WI 54115

If to Contractor:

Green Bay Tennis Center, Inc.
Attention: Kim Wedige Perna
1516 Fernando Drive
De Pere, WI 54115

7. Independent Contractor

Contractor agrees that it is an independent contractor and not an employee of the City for purposes of the services rendered herein. Contractor shall secure at its own

expense all personnel necessary to carry out its obligations under this Agreement. Such personnel shall not be deemed to be employees of the City nor shall they have or be deemed to have any direct contractual relationships with the City.

8. No Assignment/Entirety of Agreement/Severability

Contractor may not assign this Agreement, in whole or in part, to any other individual or organization without the written consent of City. This Agreement contains the entire Agreement between the parties and supersedes any and all oral agreements and negotiations between the parties relating to the subject matter hereof. If any provision of this Agreement is held invalid, illegal or unenforceable by any court of final jurisdiction, all other provisions of this Agreement be interpreted to remain valid, enforceable, and binding on the parties.

9. Authority

By signing below, the person hereby represents they have the authority to sign this Agreement and bind the respective party to the terms and conditions contained herein.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement as of the day and year first above written.

SUBJECT: 2017 Recreation Scholarship recap

It gives me great pleasure to provide you with the following report related to our Recreation Scholarship Program. For the 2017 year, we distributed \$2,325 in scholarship funding to needy families for participating in recreational programming in the City. The funding assisted 27 different families ranging from Pool Memberships to youth athletic leagues.
